The Dominant Seventh Chord

Unlike a triad, which is a three note chord, a seventh chord contains four different pitches. A dominant seventh chord is the primary chord used in the blues. You may recognize it's bluesy quality. This type of seventh chord consists of a basic major triad like A, for example. An additional pitch is added to the chord which is designated by the number $\bf 7$ after the letter $\bf A$.

Try the A7 chord in the practice examples below.
